

How to Implement CSS (Internal CSS)

```
<HTML>
<head>
<style>
p
{
color:red;
font-family:Curlz MT;
}
h1{color:white;background:green;text-align:center;font-size:50px;}
h2{background:purple;color:yellow;}
</style>
</head>
<body>
<h1>HTML with CSS </h1>
<h2> CSS : Casceding Style Sheet</h2>
<p>CSS is used to style the HTML Element</p>
</body>
</HTML>
```

HTML with CSS

CSS : Casceding Style Sheet

CSS is used to style the HTML Element
